Comrade S. H. Burtis of Lewiston, Ill. had some thrilling experiences, but none seemed more dangerous than those of his late heart trouble. He says: "I had severe palpitation of the heart for years. My physicians said I was liable to drop dead any moment. Pulsation at times would be 150 a minute and I could scarcely breathe. I grew worse under doctor's care and began taking Dr. Miles' Heart Cure. It gave me prompt relief, and today I am in good health."

ANNEXATION TALK

Revolutionists in Santo Domingo Will Govern.

New York, Aug. 31.—Adriano Gruellon, the representative in this city of the revolutionary party in San Domingo, takes occasion to correct the name of the leader of the revolution and candidate for the presidency. He says that his chief's name is General Jimenez and not Jimenez or Jimenez, as it has been printed in the newspapers of this city. Mr. Gruellon said in an interview that he had received no dispatches from Santo Domingo since Monday, but judging from the latest press and private advices he had no doubt that the revolutionary party would be in complete control of the country within a few days. "This has been almost a bloodless revolution," he said, "and there is not likely to be any serious fighting. The old government recognizes that the people desire a change and is yielding as rapidly as the leaders of the revolution reach the various cities. In a very short time conditions will be ripe for general Jimenez to proceed to the island, not as a dictator, but as the chosen president of the republic. "I cannot understand the action of the United States authorities in Cuba toward General Jimenez, first in arresting him and again on Monday, in refusing to permit him to land at Santiago de Cuba. It seems to me either that the situation cannot be understood in Washington or that some powerful influence is at work there against the Dominican revolutionary party, possibly with a view to continuing the present disturbed condition until such time as it might appear proper for the United States to step in and seize and annex the island. It may as well be understood that annexation is one of the questions of the day. "In the first place, other countries, particularly Germany, have interests in Santo Domingo which would impel them to resist any attempt of the United States to assume control of affairs there, and secondly, the Dominicans feel competent to govern themselves. They had a good government until foreigners came in and with the assistance of the corrupt Haitian government started speculative schemes which ruined the credit of the island. "While we oppose annexation, we of the revolutionary party are most friendly to the United States, and one of the first aims of the new administration which is certain to be in power within a short time, will be to establish close commercial relations with this country by means of a tariff arrangement. A minister will be sent to Washington as the new government is established with authority to open negotiations for a tariff agreement. "At present all the tobacco raised in Santo Domingo is sent to Germany because it is excluded from the United States by the high tariff. The principal exports from the island to this country are sugar and logwood, and it imports from here flour, lumber and machinery. "The foreign trade of the island has been practically ruined by the heavy inflation of its paper currency, but the new government will inaugurate a sound financial system, and after that there will be reason to expect a renewal of prosperity. "Mr. Gruellon spoke kindly of General Figueroa, the present acting president of Santo Domingo, who assumed the reins of government after the assassination of Heutreaux.

SEVERAL CASES OF SMALLPOX. Reported County Judge Terrell From the Santiam Country. The following letter was received by County Judge Terrell yesterday in regard to smallpox cases existing in the Santiam country. I wish to call your attention to the fact that there are several cases of smallpox at Berry station, on the U. & E. railroad sixty miles east of Albany, in Marion county. There has not been a competent physician there yet. It ought to be looked after immediately. I do not know where to address the board of health, or I would notify the members of it at once. "The people are very much alarmed and wish to be notified so that they could be taken immediately. The judge advised the people up there to quarantine themselves and confine the disease if possible. The above letter was received from W. J. Clark, justice of the peace at Bates, who is a reliable man. T. A. Livesly, one of Salem's lively hop factors, has returned from a business trip in Portland.
